- Hyperhidrosis Treatment (Excessive Sweating)
- Volume Loss and Contour Treatment
- PRP
- PDO Threads
- Bio Remodelling

ANNOUNCEMENT

On March 7th, 2024, the TGA introduced new regulations affecting the cosmetic injectable industry. These guidelines restrict the use of terms like "anti-wrinkle injections" or "dermal fillers" due to their prescription-only status, making it unlawful to advertise prescription medicines. As such, we are unable to provide pricing for our treatments online or on social media platforms.

We acknowledge the frustration this may cause for patients seeking information. Please know that we are not intending to withhold information or mislead in any manner. Please come in for a face-to-face consultations where we can openly discuss all details, including personalised pricing based on your specific concerns.

FACE SLIMMING PACKAGE

This package is great for those who want to tighten their skin, improve skin quality, reduce submentum fat (double chin), stop jaw clenching and grinding and gives a slimmer face. This includes:

1. **Facial slimming:** Reduces jaw clenching and grinding which prevents further damage to your teeth, helps with the jaw pain and headaches. By weakening the muscle, it will also shrink over time, giving the appearance of a slimmer, more V-shaped face.
2. **The Face Contour** helps reduce the double chin (submentum fat) and tightens the skin by using Radio Frequency Technology.
3. **HIFU** helps tighten and lift the skin by increasing collagen formation. It uses ultrasound waves to create a wound at a dermal level without affecting the top few layers of skin. It is the only treatment in the market that reaches the SMAS layer (muscle).

Package is done over 2 sessions 1 month apart

INCLUDES:

- 1x Face Slimming Muscle treatment \$680
- 1x HIFU (Cheeks, Jawline and Double chin) \$800
- 1x Face Contour (Cheeks, Jawline and Double chin) \$250

RRP \$1730

NOW ONLY \$1300!

REJURAN

Rejuran is a cutting-edge skincare treatment originating from South Korea, renowned for its rejuvenating effects. Derived from salmon DNA, Rejuran stimulates collagen production, reduces fine lines and wrinkles, and improves skin elasticity. Its natural ingredients promote skin healing and regeneration, making it ideal for addressing various skin concerns such as aging, acne scars, and uneven texture.

Bio Skin Healer Eyes 1ml	\$650	\$1500
Bio Skin Healer Scar 1ml	\$650	\$1500

NCTF SKIN BOOSTER

NCTF BOOST 135 HA is a powerful anti-aging complex with 59 active ingredients that stimulate fibroblasts to boost collagen, elastin, and hyaluronic acid production. It effectively smooths fine lines and wrinkles, deeply hydrates to enhance skin plumpness, and improves overall skin texture, tone, and radiance. By increasing skin firmness and elasticity, it delivers noticeable, long-lasting results, helping maintain a youthful, rejuvenated complexion for months.

	X1	X3
NCTF Skin 3mls	\$480	\$1200

PRP

Platelet-rich plasma is a medical grade skin rejuvenation treatment that utilises your own blood's platelets to release growth factors and to build strong skin. PRP stimulates collagen and elastin production which thickens and tightens thinning skin, effectively smoothing wrinkles and fine lines. Because it boosts collagen, it's also a great treatment for improving overall skin texture and tone. It's particularly good for people who suffer from rosacea or acne. PRP is also a great treatment for those with thinning hair as it can help slow the rate of hair loss. It promotes new, thicker hair growth, improves the condition of your scalp, stimulates the production of new collagen, and promote hair growth and healing following hair transplantation.

3-5 treatments recommended for the face
6-12 treatments for hair loss

	X1	X3
Eye Rejuvenation	\$480	\$1100
Full Face Rejuvenation	\$580	\$1300
Hair Loss (Scalp, Beard, Brows)	\$580	\$1300

All treatments will done by skin needling or injections (if required) and includes 1 Vial, The Treatment Packages will receive a Toskani Home Care Recovery Gel

EXOSOMES SKIN & HAIR

Exosomes, an innovative skincare and scalp care solution, taps into exosome therapy from South Korea. These tiny vesicles, secreted by stem cells, carry vital molecular signals for regeneration. Tailored for skin rejuvenation and hair growth, Exosomes complement facial resurfacing procedures like laser treatments. Applied post-treatment, its effects last 6-8 months, ensuring long-lasting benefits.

	X1	X3
Full Face Rejuvenation	\$500	\$1450
Hair Loss	\$500	\$1450

All treatments will be done by skin needling or injections (if required) and includes 1 Vial, The Treatment Packages will receive a Toskani Home Care Recovery Gel

PDO THREADS

PDO threads are designed to perform a revitalization skin treatment, the treatment is beneficial for skin tightening, skin thickening and to improve skin texture thus reducing the appearance of wrinkles. Once inserted into the skin,

PDO mono threads activate collagen synthesis to gradually tighten and rejuvenate the skin. This provides the skin with a tighter feel and appearance and more of a youthful look.

helps stimulates your collagen to create a natural result to tighten, thicken and improve the skin.

FACE LIFT

Body Contour Studio created the Face lift treatment which targets wrinkles, skin laxity and double chin fat. The Face Lift is a tailored treatment plan that combines HIFU and the Face contour to ensure that all problem areas are targeted. This is the most popular treatment as it helps with skin lifting and tightening, sharpens the jawline, facial contouring, double chin reduction, minimises fine lines and wrinkles. improvement of skin texture and laxity. Results improve up to 6 months

FACE LIFT SINGLE SESSION \$650

1x Face Contour

1x HIFU on jawline & double chin

FACE LIFT PACKAGE \$950 (2 Sessions)

2x Face Contour

1x HIFU on Cheeks, jawline & double chin

FACE CONTOUR

This treatment utilises radio frequency waves to penetrate the skin to tighten it from the inside out. The localised heating causes an immediate contraction of collagen fibres and accelerates the production of collagen and elastin which has a tightening effect on the skin. The results get better overtime due to the increased production of collagen fibres giving you a tighter and younger looking skin.

SINGLE SESSION \$350

3 SESSIONS \$980

HIFU

HIFU (High Intensity Infared Ultrasound) uses focused ultrasound energy to promote the body's own collagen production, for skin tightening and lifting. It targets the underlining skin levels including the SMAS (muscle layer) at the right energy and temperature to tighten, lift and strengthen for a more youthful you.

Results are scientifically proven to improve up to 6 months

Kankles/ Ankles	\$400

FAT FREEZING

Cryolipolysis utilises highly controlled cooling technology that can safely and effectively reduce and eliminate fat cells from specific areas of the body. Cryolipolysis can deliver significant fat reduction (10 - 25%) in these targeted areas which help to contour the body and reclaim its natural shape. This procedure is non-invasive with no anesthesia or recovery time.

Clients will often see visible results after 6 to 12 week of the treatment. It is important to note that dead fat cells will continue to flush out of the body 3 months post treatment. This treatment is perfect for those with stubborn fat!

You can target the following areas of your body:

Upper and lower abdomen, Hip and love handles, Banana Rolls / Under the Buttocks, Arms, Inner and Outer Thighs, Back, Submental "Double Chin", Around the Knees & Gynecomastia "man boobs" (males only)

Fat Freezing 1 area/applicator \$250

BODY CONTOUR

Ultrasonic Fat Cavitation and Radio Frequency Skin Tightening is a non-invasive procedure that melts fat away without the extensive risks of traditional procedures like liposuction.

Fat cavitation uses radio frequency energy to liquefy fat cells and stimulate the production of collagen and elastin. The fat cells cannot withstand this pressure, and therefore disintegrate into a liquid. The body then moves this liquid through the lymphatic system to the liver, where it's recycled and used as energy. The result is immediate centimetre loss and will leave your skin looking smoother, with less visible dimpling, lumps and bumps.

We like to use these in smaller areas where Fat freezing cannot treat
For the best results 8 to 10 sessions are required

	X 1	X 8
Armpit Fat	\$200	\$1500
Upper or Lower Back	\$220	\$1600
Outer or Inner Legs	\$220	\$1600
Knee / Ankles	\$200	\$1500

EMS MUSCLE TREATMENT

This is a non-invasive treatment and has no recovery time or any pre/post-treatment preparation. EMS uses High Intensity Forced Electromagnetic therapy to create a muscle contraction stronger than you could ever achieve on your own. In each 30-minute session, you can achieve 20,000 contractions – the equivalent of 20,000 crunches/squats to strengthen and tone your inner core, sculpt your abs and glutes. This contraction does not involve muscle relaxation and the muscle works at its maximum capacity. These extreme contraction conditions require the muscle to adapt and develop muscular mass over the treated area and burn fat in the background.

The results are similar to the results of months of time spent at the gym building muscle and losing fat. Many people will notice results within the 2 to 6 weeks following treatment and they will continue to improve in the months following. A positive lifestyle of proper food intake and exercise with help maintain the effect.

Areas: Buttocks and abdomen

Single session	\$260
4 sessions	\$900

COLOMBIAN BUTT LIFT

At Body Contour Studio we utilise your body's own natural shape and adipose tissue to naturally create your ideal buttocks! Our Colombian Butt Lift is a 4 session procedure which will contour, tighten and lift your buttocks.

This treatment is a non-invasive, painless procedure and combines Cyrolipolysis (fat freezing) and Emshape to help you get the rounded and uplifted buttocks you desire. The treatment works to reshape, tighten and contour the buttocks by melting the fat cells, resulting in a more well-rounded and lifted bum.

This involves 4 sessions done once or twice a week. It is important to come weekly to get the best results

Package Price \$1200

Fat Freezing banana roll (1 session)

Emshape (4 sessions)

All done in 4 sessions 3-5 days apart for the best results

A woman with brown hair is lying back in a white chair, receiving a facial treatment. A practitioner wearing white gloves is using a handheld device with a glowing orange tip on her neck. The woman's face is covered in a clear, gel-like substance. The practitioner is wearing a black face mask and a gold bracelet. The background is a plain, light-colored wall.

GLASS SKIN PACKAGE

Achieve a refreshed, youthful complexion with this all-inclusive treatment designed for lasting results. This rejuvenating package combines cutting-edge mesoneedling with customised active ingredients to brighten skin, improve texture, and reduce fine lines and scars. Paired with a HIFU treatment to tighten and lift the cheeks, jawline, and chin, it promotes collagen production for a firmer, youthful appearance.

3X MESONEEDLING WITH INJECTABLE GRADE ACTIVES

This is a comprehensive session and includes a clinical cleanse, Mesoneedling with a personalised Injectable Grade Active Serum, Dexanyl for post-treatment recovery, an Alginate Peel-off mask, and a soothing Recovery Gel. Valued at \$1200

1X HIFU SKIN TIGHTENING

HIFU treatment to tighten and lift the cheeks, jawline, and chin, it promotes collagen production for a firmer, youthful appearance. Valued at \$680

1X TWO DUOSOMAL CHEMICAL PEELS

Introducing the revolutionary "lunchtime" peel combining ultra-pure acids in liposomes and free acids for effective results with minimal side effects. It rejuvenates skin, reduces fine lines, wrinkles, sun damage, and smooths texture. It also fades hyperpigmentation, age spots, and acne scars while boosting collagen for firmer, radiant skin. Choose from four peel options tailored to your needs, this will be done in your first mesoneedling session. Valued at \$400.

1X HOME CARE

Book this package and receive your homecare complimentary (valued at RRP \$184)

Toskani Cleanser and Total Recovery Gel - this will be customised depending on your skins needs.

RRP \$2280

NOW \$1340

GLOW UP MEDIPEEL

The treatment is great if you are after a nice glow. It includes a clinical cleanse, two Dusomal Peels, Dexanyl for post-treatment recovery, an Alginate Peel-off mask, and a soothing Recovery Gel.

Choose from our selection of four Duosomal peels:

- ◆ **MANDESOME DUO:** This peel offers dual benefits, renewing the skin while diminishing imperfections. Mandelic acid, an alpha hydroxy acid, targets irregular pigmentation and post-inflammatory hyperpigmentation, making it ideal for acne-prone skin by exfoliating for a rejuvenating effect.
- ◆ **LACTISOME DUO:** Designed for sensitive skin, this peel combines skin renewal with improved texture and hydration. It enhances skin relief and moisture while delivering strong anti-aging benefits.
- ◆ **SALISOME DUO:** formulated for acne-prone skin, this peel promotes skin renewal and addresses acne-related concerns - targets oily skin prone to blemishes and post-inflammatory hyperpigmentation.
- ◆ **GLYCOSOME DUO:** This peel revitalises the skin while reducing signs of aging. Glycolic acid stimulates collagen synthesis and diminishes age-related wrinkles and spots, providing a notable anti-aging effect.

GLASS SKIN LALA PEEL

The LHA LALA Peel, developed in South Korea, is a gentle yet effective chemical peel ideal for sensitive, acne-prone, or ageing skin. It combines Lipo-Hydroxy Acid (LHA), a derivative of salicylic acid, with Lactic Acid to exfoliate and hydrate the skin. LHA removes dead skin cells and clarifies pores, while Lactic Acid promotes regeneration and smooths fine lines.

Popular for its mild exfoliation, the LHA LALA Peel improves skin texture, reduces pigmentation, and enhances radiance with minimal irritation. It's perfect for those new to chemical peels or with sensitive skin. With minimal downtime, it provides smoother, brighter, and clearer skin.
